Joe -

As Dave says we are in the process of cleaning up the references which will effort as you can see from the list. I had hoped I was clear with Dan that we were foregoing perfecting the references in order to get you the base information in the draft at the end of last week.

I just want you to know while we will work on this request, we have some other tasks on this opinion and this isn't necessary our top priority right now.

Regards -
Mary

Hi Joe,
I have asked our Mariana Island Team to run Rubinoff and the rest of these missing references down for you. They are meeting about CJMT today so there aren't bodies left to look at this today.

I will be back East on personal business tonight through August 1. I have let Kristi and Jackie know that you have requested these, and I've asked Jackie to make it a priority to respond to you with the information you've requested.

Thanks,
David

Dave,
Any luck on the Rubinoff below? As I read on, there are a couple other references that I hope that you can link me

to as they are missing from the Mariana eight spot butterfly section of the draft document. I need the complete reference (not just author and year) so I can review the references? My web searches aren't pulling up the below...

Thanks,
Joe

Hey Dave,

You refer to "Rubinoff (2016) on page 39 but don't have it in your list of references (more than made up for by the 20 or so Mariana Crow references). Could you link me to the document as I can't find it on the web? It discusses metapopulations for the 8-spot.

Thanks,
Joe
